

Relax. You're Covered
with Sientra TRUE Texture.®

INTRODUCING

Sientra's CapCon Care Program

You want more
than beauty.

You want a
youthful feel

and

peace of mind.

Ask your surgeon about

sientra.®

Relax.

You're covered.

You want a natural feel. If you don't get the feel you're looking for, because of a complication called capsular contracture, Sientra has a solution for you.

The C³ Program

- Two-year coverage against capsular contracture starts the day of the primary augmentation surgery.
- Capsular contracture within that time means you get a replacement implant. Free.

Program Details:

- A diagnosis of Baker Grade III or IV capsular contracture is required to be eligible for the program.
- Replacement implant must be the same style as the primary augmentation implant, and the same size or one size up or down.
- C³ provides the implant for free. It does not cover surgery or hospital costs.
- Replacement surgery must be by a board-certified or board-eligible plastic surgeon.

For more information about the C³ program and Sientra breast implants visit sientra.com/resources

Important Safety Information

Sientra's Silicone Gel Breast Implants are indicated for breast augmentation in women at least 22 years old and for breast reconstruction. Breast augmentation includes primary breast augmentation to increase the breast size, as well as revision surgery to correct or improve the result of primary breast augmentation surgery. Breast reconstruction includes primary reconstruction to replace breast tissue that has been removed due to cancer or trauma or that has failed to develop properly due to a severe breast abnormality. Breast reconstruction also includes revision surgery to correct or improve the results of a primary breast reconstruction surgery.

Breast implant surgery is contraindicated in women with active infection anywhere in their bodies, with existing cancer or pre-cancer of their breast who have not received adequate treatment for those conditions and, who are pregnant or nursing.

Key complications include capsular contracture, implant removal, rupture and reoperation. For more detailed information about the risks and benefits of Sientra breast implants, please visit www.sientra.com/resources or call Sientra at (888) 708-0808. Sientra breast implants with High-Strength silicone gel are only available through board-certified or board-eligible plastic surgeons.
